

# THE GAME-CHANGER THREE ON SIX FULL-ARCH PARTNERSHIP

Beyond All-on-4. Profitable. Predictable. Preserved.

Presented by Dr. Allen Huang, DDS, MS  
Ivy League & Board-Certified Periodontist.

## Why Partner with Dr. Allen Huang?

- Elite Training: University of Pennsylvania (U Penn) graduate. Advanced periodontal and dental implant training.
- One of the few Board-Certified Periodontists in Las Vegas, NV.
- Independent Private Practice Owner – Significance Dental Specialists (not DSO, not corporate-owned).
- Selective Partnerships: Dr. Huang only partners with top restorative dentists who share his standard of care.
- Seminar Required: For best patient care, he will not co-treat 3-on-6 / 4-on-8 cases with any dentist who has not attended this seminar.

**Spaces are extremely limited. Attendance is by invitation only. RSVP by 11:59 pm, 4/27/2026.**

## COURSE OVERVIEW

Full-arch implant cases are among the most life-changing and most intimidating cases in dentistry.

Traditional All-on-4 hybrids often require aggressive bone reduction, are harder for patients to clean, and frequently become maintenance headaches.

In this evening program, Dr. Allen Huang presents his full-arch workflow using 3-on-6 and 4-on-8 FP1-style restorations—a bone-preserving, highly cleansable alternative designed for long-term success.

This model is built specifically for restorative dentists who want to keep full control of the prosthetics, minimal clinical time, and a strong restorative fee per arch, while partnering with a trusted surgical specialist.

## WHAT'S IN IT FOR YOUR PRACTICE?

### Minimal Chair Time, Maximum Profit

You focus on patient education, shade/esthetic decisions, and final delivery. Dr. Huang's team handles 3D planning, surgery, photogrammetry, and temporaries.

### Strong Restorative Fee

With focused, profitable and efficient chair time.

### Full Restorative Control

You maintain control of esthetics, occlusion, and long-term follow-up. Your patient sees you as the center of their care—supported by a specialist, not replaced by a corporate center.

### Long-Term Patient Satisfaction

FP1 design, more natural feel, easier home care, fewer hygiene-related failures.

## YOU WILL LEARN HOW TO:

- Differentiate All-on-4 hybrids vs. 3-on-6 / 4-on-8 FP1 restorations.
- Select ideal candidates based on age, bone foundation, and long-term prognosis.
- Integrate digital planning, CBCT, intraoral/facial scanning, and photogrammetry.
- Divide responsibilities so the restorative dentist keeps control with minimal chair time.
- Understand the financial model and how to incorporate high-value full-arch cases into your practice.

## EVENT DETAILS

- Date: Thursday, May 7th, 2026
- Time: 6:00 PM – 8:00 PM
- Location: TPC Summerlin Country Club
- Course Fee: Complementary
- Includes: Light dinner, drinks, Q&A
