

INTRODUCTION TO THE FULL ARCH FIXED IMMEDIATE PROTOCOL FROM THE SURGICAL PERSPECTIVE

DATE & TIME:

Thursday, February 26, 2026

5:30pm–6:00pm

Registration

6:00pm–8:00pm

Program

LOCATION:

The Assembly at the Uncommons

8460 Rozita Lee Ave

Las Vegas, NV 89113

TUITION:

Complimentary

AUDIENCE:

General Dentist

AGD CODE:

690

SAC:

Straightforward

TYPE:

Lecture

CE HOURS:

2.0 hours

SPEAKER:

Dr. Robert Vogel

Full arch rehabilitation with dental implants in edentulous patients or those with compromised remaining teeth is a highly predictable treatment. Three-dimensional position of the implants, as well as bone reduction when indicated, are crucial points for treatment success, therefore, tilted implants can be planned to minimize the extent of cantilever and avoid the commitment of the maxillary sinus and inferior alveolar nerve. The hybrid prosthesis is the most common type of prosthesis used in this kind of treatment and minimum space is required to allocate for the prosthetic abutment, the framework and the teeth. This training aims to demonstrate the protocol for treatment involving alveolar bone reduction, proper implant placement, proper selection of straight and/or angled abutments, and the immediate provisional options.

OBJECTIVES

- Learn the proper implant selection, design and drilling sequence for different bone densities.
- Discuss 3-dimensional planning of implant placement.
- Discuss ideal abutment selection for the biological width.
- Learn the key components of prosthetic pre-planning for optimal success.
- Discuss when to choose guided surgery vs. free-hand.
- Discuss the various applications of digital technology in full-arch fixed implant rehabilitation.
- Focus on the team approach and proper communication that leads to success.

DR. ROBERT VOGEL

DR. ROBERT VOGEL from Columbia University in New York City before completing residency training at Jackson Memorial, Mount Sinai and Miami Children's Hospitals in Miami Florida.

He maintains a private practice in Palm Beach Gardens, Florida in Implant Prosthetics and Reconstructive Dentistry working as a team member with several specialists providing Implant based comprehensive treatment, conducting clinical trials and providing advice to the Dental Attachment and Implant field. Dr. Vogel has developed and collaborated on development of several prosthetic components and techniques currently in use in Implant Dentistry.

He lectures internationally on Implant Dentistry focusing on "Precision, Productivity and Ideal Patient Care in Implant Prosthetics" through proper Planning, use of digital technologies and Team Interaction. He has published numerous scientific articles in Implant Dentistry, is a Fellow of the International Team for Implantology, a Diplomate and President of the Academy of Osseointegration and Fellow of the International College of Dentists.

REGISTRATION POLICY

- Registrations are taken on a first come, first serve basis
- Registrations are not considered final until payment is received
- Your registration will be confirmed by email within two weeks of receipt
- Partial payment cannot be accepted

CANCELLATION AND REFUND POLICY

- Cancellation made 30 days or more before the course starts: Full refund
- Cancellation made 15-29 days before the course starts: 50% of the course fee will be refunded
- Cancellation made 0-14 days before the course starts: No refund
- A \$25 administration fee will apply to all cancellations

Straumann reserves the right to cancel courses that do not meet minimum enrollment. The course fee will be refunded, in full, within two weeks of the cancelled course date. Attendance is not confirmed until attendee has received a letter of confirmation from the Straumann Education Department.
